

Brief Synopsis
666 – Mark of the Beast

Jacob Adler, popular rabbi and spiritual leader of his community, begins to notice that unusual things are occurring – congregants seem oppressed and harried like never before. His morning and evening Shabbats are crowded with standing room only. When one of staff members is murdered in the temple, he realizes that evil has beset his people and that he must guide them through the dark days to come.

On the other side of the world charismatic Evangelical pastor Carl Stevens learns the hard way that he must abandon his sinful ways because the End of Times that he's taught his flock for years but never believed is upon them. A series of events convince of the presence of evil in his community – from an eerie stranger who leaves the sanctuary several inches off the floor to a beautiful woman who lures him into a compromising position only to turn into a huge serpent.

Both spiritual leaders, though a world apart, share the onus of leading their people from the world's darkest days into the glory of the Rapture.
